Baseline (Global-Only)

X Normal — Wrong (FN)

"Answer: No" (no further reasoning provided)

Clip-Only (Local without Global Context)

X Normal — Wrong (FN)

"The person's movement is consistent with normal activity — running across a yard. No evidence of a threat."

ATR (Global + Local Dual-View)

✓ Anomaly — Correct

"Rapid movement across the yard is unusual for a typical backyard. Speed and direction suggest urgency — possibly fleeing or being chased. Clearly anomalous behavior."
